### Management Summary

### MANAGEMENT SUMMARY

- Most lakes were marked requires attention for shoreline weeds. Shoreline weeds include emergent growth around the lake perimeter including but not limited to: Torpedograss, various vines, cattails, pennywort and brush such as primrose or smartweed. These types of weeds are typically found year round.

- Due to the large amount of littoral acreage and exposed bank, Solitude has brought in additional wetland labor to maintain these large littoral areas. The wetland crew is responsible for spot treating large littoral areas for invasive and nuisance species in addition to what the lake tech maintains. This additional labor is considered part of the routine maintenance. The wetland crew will continue to treat each month moving forward.

- The next quarterly report will cover the first half of the lakes and is due in May 2023.

SUBJECT: Consideration of Award of Contract – Lake Maintenance

Your Lake Maintenance contract with Solitude Lake Management (formally Lake Masters) expired March 31, 2023. Staff has extended the contract through the month of April.

Staff recently solicited a Request for Proposals (RFP) from three contractors with all submitting a bid, based on the contract specifications provided by the district.

As is typical with the district's contracts, this is a one-year contract with a second-year option for renewal, at the sole discretion of the district. The financial tabulation is as follows:

Company:	1 <sup>st</sup> Year Price:	2 <sup>nd</sup> Year Price:	
• Premier Lakes, Inc.	\$86,400.00	\$89,856.00	
• Superior Waterways Services, Inc.	\$87,356.70	\$89,977.40

<u>Note:</u> A Defective Work Notice was issued to Solitude Lake Management on December  $12^{\text{th}}$  due to contract deficiencies based on a property review by Staff on Friday, December  $2^{\text{nd}}$ .

# SARASOTA NATIONAL COMMUNITY DEVELOPMENT DISTRICT 9220 Bonita Beach Road, Suite #214 Bonita Springs, FL 34135

Their local office is based out of Punta Gorda; established in 2022. Their reference list includes Orchid Island Golf and Beach Club (Vero Beach), Fiddlers Creek CDD #1 (Naples) and River Ridge CDD (Estero).

Superior Waterways Services, Inc. was established on the east coast of Florida in 1999 and possess the knowledge, training, and resources required to maintain the District's Aquatics Contract. Their local office is located in North Port.

• Current Clients Include: Beach Road Gold Estates (Bonita Springs), Hideaway Beach Club (Marco Island), The Vineyards (Naples).

The current contract price is \$94,447.24. Premier Lakes bid submittal is \$8,047.00 or an 8.5% below the current contract. With a second-year option to renew \$89,856.00.

113 Mr. Smith asked how the newly implemented three-person crew approach is working. 114 Mr. Maher stated it is helpful; while compiling numbers takes longer, more detailed work is 115 being performed than one technician could accomplish, especially on larger littoral areas.

116 Mr. Willis stated a resident had a complaint about bulrush; the bulrush in the area was 117 treated. Mrs. Adams noted that bulrush is a beneficial littoral plant material; however, in some 118 settings it is not used adjacent to residences due to its height.

Discussion ensued regarding Mr. Smith's request to inspect the lakes with a representative from SOLitude and the need for Supervisors to schedule individual lake and wetland inspections in order to be in compliance with the Sunshine Law. Mr. Willis will schedule individual tours with Supervisors Smith and Istwan. Ms. Whelan discussed the importance of the Sunshine Law and avoiding situations that might give the appearance of noncompliance.

124 A Board Member asked if the hurricane impacted the stormwater system. Mr. Maher 125 stated there was no significant hurricane debris in lakes or the stormwater system; some 126 littoral plants were damaged by flooding.

#### 128SEVENTH ORDER OF BUSINESSDiscussion: Wetland 46 Disturbance

130 Mr. Smith stated several neighbors observed activity on October 29, 2022.

Resident Carl Hanover, who lives directly across from Wetlands 46, described concerns about damage to the area behind the boundary stakes behind Hole #16 during hurricane cleanup. Another resident intervened and stopped the worker, who was very polite and advised that he was an out-of-state worker sent by the Golf Course Superintendent.

Mrs. Adams stated the Golf Course will be held responsible and will reimburse the CDD for any resulting damages. A survey will be completed and an ecologist will inspect and provide the cost for the required restoration. Mr. Healy provided contact information. Mr. Willis will obtain quotes for the survey, as well as the ecologist and the restoration requirements.

Mr. Healy asked if the Golf Course indicated what was being removed from the wetlands. Mr. Hanover believed Carolina willows and Brazilian peppers were removed. Mrs. Adams stated Carolina willows are native plants.

Mr. Hanover described his correspondence with Ms. Grabowski and Mr. Ernhardt regarding the intent to selectively remove debris and replace plantings in the wetlands. He noted that environmentally sensitive signs are present in the area.

145 Discussion ensued regarding the correspondence and the possibility that there was a 146 misunderstanding resulting in too much debris being removed.

147 Asked if the trees removed affects play of Hole #16, Mr. Hanover stated it does not and 148 stated some trees were processed for mulch and soil for new plantings.

Mr. Hanover stated, when the golf course reopened, residents observed similar debris removal being performed in Wetlands 43 and 49. He noted that Ms. Grabowski and Mr. Ernhardt did not refer to wetlands in their correspondence.

152 Discussion ensued regarding the golf holes and paths in the areas in question.

153 A resident stated a drainage structure 30' into the wetlands might have been cleared.

Mr. Hanover discussed his correspondence with Mr. Healy, Mrs. Adams and Mr. Willis and the subsequent tour of the area. He felt that Mr. Healy should have responded sooner and that he should have provided a cost estimate for the survey crew and wetland specialists.

157 Mr. Healy believed he stated that, while he was not certain of the cost because he 158 would not be the one doing the work, he believed it is likely less than the \$35,000 threshold.

159 Mr. Leuschner expressed concern about Mr. Healy's responsiveness.

160 Discussion ensued regarding Kimley-Horn's specializations.

161 Mr. Healy apologized for not responding to the email sooner.

Mrs. Adams stated surveys will be performed and cost estimates obtained. The Golf Club has been advised to cease and desist removing vegetative materials. She described a similar situation in another CDD's conservation area and noted restoration will take some time.

165 Mr. Adams noted that replanting will likely be postponed until the rainy season.

166 Mrs. Adams stated project delays are still common due to the hurricane.

167 Mr. Adams will send a letter to The Club and copies will be sent to the Board.

168 Discussion ensued regarding damage at Hole #17.

Mrs. Adams stated that was noted and it will be addressed. She advised that conservation area trees that fall during a hurricane are not removed and trees that fall on a homeowner's property are the homeowner's responsibility. Mr. Willis noted that the "Florida Tree Law" as it is commonly known, applies. Mr. Adams stated, if a homeowner's tree falls into a neighbor's yard, the homeowner is responsible, only up to their property line. While homeowners would like the CDD to pay for trees that fall from the conservation areas, the CDD is not liable to do so.
